

Draw Off Roller

FEATURES

Product Overview:

The Draw Off Roller is designed to facilitate the smooth and efficient dispensing of cables, wires, and other materials from reels or drums.

Durability:

The draw-off roller is equipped with a maintenance-free pillow block bearing, ensuring reliable operation and reduced downtime for enhanced productivity.

Positioning:

The draw-off roller is strategically positioned in front of the drum to facilitate smooth cable guidance and prevent tangling during operation.

Guidance:

The draw-off roller is specifically designed to guide the cable smoothly from the drum into the trench, ensuring efficient and precise installation.

Heavy-Duty:

Heavy-duty steel structure and rollers equipped with pillow block bearings; the metal rollers do not deform under the weight of the cable during laying.

SPECIFICATION

MODEL: DOR

Item Code	DOR 1000	DOR 3000	DOR 4000
Length (mm)	1115	3115	4115
Width (mm)	200	180	180
Height (mm)	240	240	240
Weight (kg)	19.10	75	95
Finish	Powder coating & Electro Galvanized		

Due to policy of continual improvement, the specifications are subject to change without prior notice.
